Question 1	**0 / 1 point**

Run your credit card code on the test1 files (so you will upload and use customers_test1 and transactions_test1).   What is your hash code? It should be a four digit number. Enter it with no decimal places.

Answer:

8,573

Question 2	**0 / 1 point**

Run your credit card code on the test2 files (so you will upload and use customers_test2 and transactions_test2).   What is your hash code? It should be a four digit number. Enter it with no decimal places.

Answer:

795

Question 3	**0 / 1 point**

Run your credit card code on the test3 files (so you will upload and use customers_test3 and transactions_test3).   What is your hash code? It should be a four digit number. Enter it with no decimal places.

Answer:

3,682

Question 4	**1 / 1 point**

Run your algorithm on test2 data. Find the *last* occurrence of Frank Reynolds in your log.txt output file. Which transaction is it? (For purposes of this question, do not worry about decimal places.)

○ Frank Reynolds your account 103 had a previous balance of $-1582.0 and after your successful purchase of $1 you have a balance of $-1581.0

○ Frank Reynolds your account 103 has a balance of $9899.0

○ Frank Reynolds, your account 103 has a balance of $340

○ Frank Reynolds your account 103 had a previous balance of $-1660.0 and after your refund of $12 you now have a balance of $-1672.0

○ Frank Reynolds your account 103 had a previous balance of $-1672.0 and after your successful purchase of $90 you have a balance of $-1582.0

Question 5   1 / 1 point

Run your algorithm on test2 data. Find Bitter Melon's last transaction. Which best describes it? (Do not worry about decimal places.)

○ Bitter Melon your account 106 had a previous balance of $160.0 and after your refund of $0 you now have a balance of $160.0

○ Bitter Melon, your account 106 has a balance of $400.0

○ Bitter Melon your account 106 has a balance of $9899.0

○ Bitter Melon your account 106 had a previous balance of $300 and after your successful purchase of $100 you have a balance of $400.0

○ Bitter Melon your account 106 had a previous balance of $560 and after your refund of $400 you now have a balance of $160.0

Question 6   0 / 1 point

Run your algorithm on test3 data.   Which best describes Loraine Regson's purchasing transactions?

○ Her first transaction log reads, Loraine Regson your account 107 had a previous balance of $100.0 and after your successful purchase of $1 you have a balance of $101.0

○ Loraine Regson does not appear in this log file

○ Loraine Regson your account 107 had a previous balance of $458 and after your refund of $1 you now have a balance of $457.0

○ Her last transaction log reads, Loraine Regson your account 107 had a previous balance of $455.0 and after your refund of $3 you now have a balance of $452.0

○ Her last transaction log reads, Loraine Regson your account 107 had a previous balance of $101.0 and after your successful purchase of $800 you have a balance of $901.0
